

Master Flame ... better!

Master Flame™
Elite Series Triple Burner
Fully Vented
Gas Log Fireplace Systems

MASTER FLAME ELITE SERIES Triple Burner

The Elite Series is the preferred choice of those who want the fullest, most natural looking flame, and the only choice for those who want the luxury and esthetic appeal of a real wood fire. Optional conveniences like hi-lo flame modulation, remote controls and even electronic ignition give the owner the ultimate in comfort and mood control.

*Bask in the glow
of our fabulous
triple burner system
– the ultimate in
fireplace luxury!*

It's the best gas log system on the market due to the sandless, straight port injection, triple burner system originated by Aspen Industries. This superior system provides the most natural looking flame – resulting in fuel and cost savings and requires relatively no ember bed and burner maintenance.

Choose from two distinct log styles - Red Oak and Charred Split Oak.

RED OAK

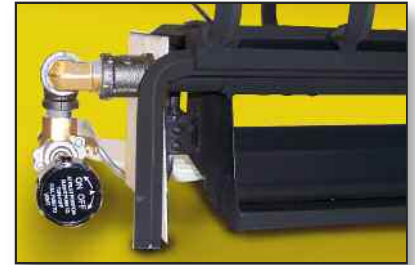

CHARRED SPLIT OAK

*All gas controls and valves are factory installed
and bench tested before shipping.*

Gas dispersed by "diverters" on main rear burner (no sand required) allows fire to "dance" naturally around the raised logs in the back.

Available with manual safety pilot valve, manual modulating valve, remote control, and electronic ignition. Also in five burner / see-thru / shared wall fireplace gas log system - the Master Flame Gemini Series.

Gas dispersed by baffles on forward burner (no sand required) lets fire "dance" naturally around the front logs and more effectively allows heat into room.

**Operating System Options
(Control Valves)**

- Manual Match-Lit System
- Manual On/Off Safety Pilot
- Manual Hi-Lo Modulating and/or Millivolt Ready (low voltage switch)
- Manual Hi/Lo Modulating with Remote Control
- Manual Hi/Lo Modulating with Electronic Ignition and Remote Control

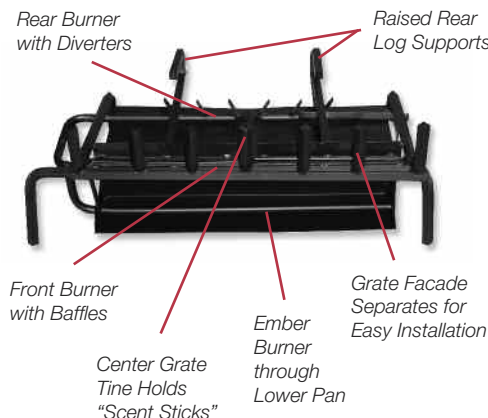

Lower pan has metered burner rather than a booster tube (no sand required) which results in much livelier embers, with natural-looking burn and glow (like a real wood burning fire).

Models Available for Natural Gas (NG) and Propane Gas (LP).

MASTER FLAME by Aspen Industries

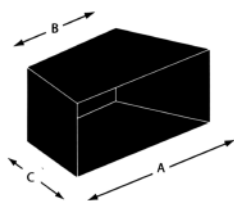

Master Flame brand ELITE Series Triple Burner Systems, by Aspen Industries, offer superior craftsmanship and life-like beauty only attainable with our innovative design and features.

Master Flame's sandless, straight port injection, triple burner system provides the liveliest and most natural-looking flame and burn - noticeably superior to grate/burner/sand/pan log sets. Master Flame log sets have greater detail, enhanced color and higher esthetic appeal. The elevated back log supports, combined with the forward, rear and ember pan burners give Elite gas log sets a brighter, fuller flame and the most natural wood-burning appearance available.

Elite Series Firebox Requirements

Burner Size	A	B	C	D	BTU's N.G.	BTU's propane
18	26"	18"	14"	17"	55k	25k
21	28"	21"	14"	17"	60k	50k
24	34"	24"	14"	17"	80k	55k
30	41"	30"	14"	17"	88k	73k

Four-Piece Optional Log Accessory Kits

Our optional log accessory kits enhance the beauty and fullness of our gas log systems. These four-piece log kits help to hide system controls, and complete the look of the fireplace, giving it the most natural appearance - whether on or off. Available in Red Oak and Charred Split Oak.

Lifetime Warranty

We are so confident in our superior design and craftsmanship, all Master Flame logs and burners carry our lifetime warranty. If your gas log system ever breaks (except breakage due to mishandling or abuse), we'll replace it at no additional cost to you. All accessories, controls and operating systems carry a one-year warranty.
